

VISION

DTIL envisions to be:

1. A preferred employer of knowledge professionals
2. A preferred technology solutions partner for its customers
3. A product company that pioneers innovation in high technology

MISSION

1. To provide high quality services and products in Automotive Electronics.
2. To build quality into services and products to achieve highest degree of customer and shareholder satisfaction.

QUALITY POLICY

Quality is something, which, if a true and united effort is made, is never out of reach-yet it will stretch the reach of anyone wise enough to seek it. Quality is not simply DTIL core strength; it is an expression of our corporate culture and values. Our goal is to achieve the highest degree of Customer satisfaction.

1. DTIL conducts its business with total commitment to its Customers and their quality standard requirements as applicable.
2. We define Customer as both internal and external.
3. We anticipate, understand, and excel at meeting Customer expectations.
4. Continuous improvement and innovation are part of our every day and every job through training, use of team participation and monitoring the key metrics.
5. Management is totally committed to achieve the best quality system, by providing the necessary resources, setting the short term and long-term goals and quality objectives, and periodic management reviews.
